Policy Innovations
for Transformative Change

The 2030 Agenda for Sustainable Development and the Sustainable Development Goals are a global commitment to “transforming our world” and eradicating poverty in all its forms everywhere. The challenge now is to put this vision into action. How can this be achieved? At this event, panellists will provide some answers to this question, by exploring how innovative policies that integrate social, environmental and economic aspects can lead to inclusive societies that leave no one behind.
